

HIGH-EFFICIENT SOFTMOUNT WASHER-EXTRACTORS

IY65
6,5 KG

IY80
7,5 KG

IY105
10,5 KG

IY135
13,5 KG

FEATURES

- Freestanding, high spin (up to 1165 rpm - IY65,IY80)
- 400G extraction speed
- Stainless steel top and front panel, black side panels
- Stainless steel drum and tub
- Patented soap hopper
- Large drain valve (Ø 76 mm)
- Easy access to all vital parts from the front
- Large door opening for easy loading & unloading
- Smart Drum : special textured drum further improves washing results

OPTIONS

- Coin operated
- Stainless steel side panels
- USB + RS485 plug
- Liquid soap connection
- Liquid soap pumps
- Water recovery kit
- Steam heating version
- Drain pump (IY65, IY80)
- 3rd water inlet

CONTROLS OPTIONS

- Aries (VEND only) – easy-to-use microprocessor
- Aries Elite (OPL only) – fully programmable
- Evolis control platform
 - available in 2 versions, EVOLIS for Vend, EVOLIS ELITE for OPL
 - 7", full color touch screen display with swipe function: very intuitive for users
 - User-friendly screen with operating instructions built in as part of the control
 - Complete control content available in 34 languages
 - Wireless communication enabling programming & firmware updates through cloud
 - Automated service reminders remind users to maintenance tasks
 - IPSO Connect: interactive dashboard offers operational performance info on mobile device

Touch screen control for Vend

Control with 7" touch screen featuring an intuitive user interface for users & access to performance data through cloud for owners. 15 standard wash programmes & 11 easy-to-use cycle modifiers.

Industry-leading 3+2 warranty

Our confidence in the dependability and robustness of our equipment is reflected in our three-year warranty policy. Plus a twoyear warranty extension on critical parts.

Touch screen control for OPL

Control with 7" touch screen featuring new connectivity and data-accessibility functionalities through cloud. 20 standard wash programmes, total memory capacity for 99 programmes.

Smart Drum

The special shape of the drum holes provides extra mechanical action which leads to better washing results. The linen doesn't stick to the drum, which simplifies unloading.

Integrated management platform

allowing analysis of financial & operational performance as well as service and maintenance organization.

Optimised energy consumption while washing

The absorption ability of the load is automatically determined at the start of the cycle. Water levels are then optimized throughout the wash cycle with no compromise to the quality of the clean.

*Program nr 13

- Control panel
- Soap dispenser
- Centralstop button
- Steam connection
- Air relieve
- Liquid soap connection
- Recycled water inlet
- Recycled water valve cable inlet
- Cold water inlet, soft
- Cold water inlet, hard
- Electrical connection
- Hot water inlet
- Main switch/Field wiring terminal (NA models)
- Heating change-over switch
- Liquid soap pump electrical connection
- Fuses
- USB port - optional
- PC programming connection
- Discharge water cable inlet
- Drain valve - 3 in. [76 mm]
- Drain Valve - 1/2", applicable for wash bath sample (on request only)
- Drain valve or recycle valve - 3 in. [76 mm] 280 L Models only
- Hidden USB port (under top cover) - standard
