

BARISTA ATTITUDE

BARISTA ATTITUDE

We are a brand specialized in the creation of new technical, aesthetic and interface concepts for espresso machines.

We represent the state-of-the-art in these machines through their design, gestural movement of the barista and his or her relationship to the space around them.

Our thermal system precise and stable is the basis of a technology recognized for its superlative reliability consolidated over time.

Everyday for more than two centuries, coffee had been landing in the heart of Europe, in Trieste, a city suspended in time and space, a natural hub between East and West, a meeting point of intercontinental maritime routes and the Adriatic-Baltic and Mediterranean corridors.

Barista Attitude seeks to bring back to life those values believed to have been lost over time by adopting a new cultural and artisanal approach.

Faro

Faro promises to transform the grinding process, allowing the barista to express their personality and instinct to the full.

Inspired by its distinctive shape and the bond between *Barista Attitude* and the sea and its symbols, the name **Faro** is inextricably linked with the values of freedom that characterise the brand. In a word, it's a benchmark for the most ambitious professionals.

EXPERIMENTATION

- ☀ Coffee grinder by weight that ensures a consistent grind and a precision of ± 0.1 g, also thanks to a patented AI-assisted self-learning system
- ☀ With the new Double Clump Crusher guarantees an even grind every time, solving all kinds of channelling issues once and for all.
- ☀ It takes less than a second to identify whether the filter holder is single or double and start grinding the set dose.
- ☀ Touch screen with user profiles that guarantee maximum security for the parameters, which are password-protected and cannot be altered
- ☀ Noise absorption system
