

STORM

BARISTA ATTITUDE

Storm is the espresso machine developed to satisfy the needs of the most experienced and enthusiastic baristas.

In Storm each detail is the result of research and dedication in a "Barista Attitude" dimension.

Storm is a mix of craftsmanship and cutting-edge technology. With Storm, a barista is free to express himself/herself and his/her own experimentation skills through simple and comfortable actions.

BARISTA
ATTITUDE

Delivered coffee is at the center of every concern. The baristas' gestures are the protagonist of the scene and have highly symbolic value.

Storm is an easy to recognize machine with strong personality, raised on its feet but among the lowest in the category and to be placed on the counter to engender a frontline barista-client relationship.

STORM FEATURES

Together with the multiboiler technology that permit the temperature's customization for each group, Storm gives the opportunity to set for each group the preinfusion time allowing an high brewing personalization.

Storm is the result of a cooperation with Adriano Design, one of the most important design studios in Italy, honored with the most prestigious national and international prizes.

Capacitive 5" display per group. Displays the graph with the extraction curve and the brewing time. Main and technician menus. Stand-by, brightness regulation, screensaver, different graphic interfaces, 8 languages available. Connection to the cloud server.

BARISTA
ATTITUDE

Competition key located above the filter holder, thus allowing its coupling and manual.

The Barista Attitude anti-scalding, cantilevered steam wand offers great safety and easy return movement to the drip tray, when the machine is idle. Super Dry is the innovative system that keep steam dry and with minimal initial condensation, guaranteed by a second heating spout which dissolves any condensation.

Since the moment of wand activation, performance can be extended even with two open steam wands, without any yield loss and with full pressure control.
